

Pause — and know where you stand.

Brand guidelines · v2 · 11 July 2026

What we are selling

Trustworthiness. Not tax software.

We ask a Ugandan business to believe our number over URA's own website, over PwC's published guidance, and over their accountant of fifteen years.

We will be right. But being right is not enough — we have to look like the kind of organisation that would be right.

Wrong, right now

The name

Selah appears 71 times in the Psalms and 3 times in Habakkuk.

A pause

A musical or literary instruction: stop here, and weigh what has just been said. The dominant reading.

“To lift up”

From the probable Hebrew root salah. To raise, to elevate. What happens after the pause.

Both are the company. Every founding story here is a failure to pause.

And we never overclaim it. The scholars disagree — and we say so. If we will be honest about our own name, a Ugandan business owner might believe us about their tax.

The logo

A caesura. In music and in verse, the double bar means: stop here.

The mark

The lockup

Wordmark

Space Grotesk, weight 500. Sentence case. Tracking -0.015em .

Never

All-caps. Letterspaced. Serif. Heavier than 500.

Clear space

The mark's height, on all four sides.

Minimum

Lockup 100px wide. Mark alone 16px.

Colour — ink and surface

Near-black with a whisper of green. Crisp white, never cream.

A solid black rectangular color swatch.

0A0F0D

ink 900

primary text

A solid dark charcoal gray rectangular color swatch.

3D4642

ink 700

secondary

A solid medium-dark gray rectangular color swatch.

6B7570

ink 500

muted

A solid light gray rectangular color swatch.

C4CBC7

ink 300

disabled

A solid very light gray rectangular color swatch.

F7F9F8

Emerald — the one accent

00A37A

Emerald does three jobs.

The brand. · “Verified” — Confidence A. · Money owed to you.

One accent doing three jobs is discipline, not poverty. When a user sees emerald, they already know: Selah checked this, and it is good news.

The two signals

Held back, so that they mean something.

Amber

D97706

Caution

Confidence B or C.

A conflict with an official source.

An approaching deadline.

Red

DC2626

Stop

Confidence F — a refusal.

Arrears.

Money you owe.

No gradients. No decorative colour. No fifth hue — if you are reaching for one, the design is wrong.

Typography

Space Grotesk and JetBrains Mono. No serif, anywhere.

Space Grotesk

Everything. Wordmark, headlines, body, UI.

A grotesque with engineered character — it reads made.

JetBrains Mono

Every number. Without exception.

Fallback: IBM Plex Mono, any tabular mono.

Space Grotesk has personality — and personality is a liability at 11px in a dense tax table. Test it there before launch.

The scale

Display 40 · Title 24 · Heading 18
Body 15 · Small 13 · Caption 11

Nothing below 11px.

The weight

400 and 500. Only.

Never 600. Never 700.
Bold shouts, and we do not shout.

The case

Sentence case, always.

Emphasis comes from colour,
space and scale — not weight.

The single most important rule

Every number is monospaced, tabular, and right-aligned.

335,001 - 410,000 @ 20%	15,000
410,001 - 485,000 @ 25%	18,750
485,001 - 1,000,000 @ 30%	154,500
PAYE	188,250

Set a tax computation in a proportional font and it reads like a blog post.

Set it in mono and it reads like a fact.

It costs one CSS rule. It is the cheapest credibility in the entire brand.

The trust components

These are the brand. Everything else is preparation for them.

A · primary law

Safe to display.

B · corroborated

Safe, with the verified date.

C · uncertain

Do NOT display a number. Route to a human.

F · unknown

REFUSE. Show the refusal card.

The verified stamp

verified 11 jul 2026

An undated tax claim is a liability.

The citation block

Income Tax (Amendment) Act 2026, Sch. 4 Pt I.
Uganda Gazette No. 33, Vol. CXIX.

Primary law. Never a blog.

We never quietly override an official source. We show the conflict — and let the user decide.

The refusal card

The most persuasive screen in the product.

F · unknown

**We cannot calculate this,
and we will not guess.**

The 2026 Act replaced all of Schedule 4 Part I with a resident-only table. No non-resident bands follow it. We read the gazetted Bill twice, from two independent copies. No source in Uganda publishes them.

We have requested the enacted Act from URA and are preparing a private ruling request.

A competitor can copy our calculators in a weekend.

**They cannot copy a
refusal card.**

To publish one, you must have actually checked — and then been willing to say you don't know.

Every competitor's calculator returns a number here. Ours returns the truth.

Voice

Plain. Precise. Unhurried. The numbers persuade — we get out of the way.

Never

“Unlock massive tax savings!”

“Easily manage your compliance.”

“Our AI-powered engine...”

“Consult a professional.”

Always

“You may not have owed the tax you paid. Here’s how to check.”

“URA is holding UGX 3,600,000 that belongs to you. You hold 4 of 11 certificates.”

“We read the gazetted Act. URA’s website hasn’t been updated yet.”

“We haven’t seen your contracts. Ask your adviser whether this applies to you.”

Sentence case. No exclamation marks, ever. Never “simply”, “just” or “easy” — they condescend, and tax is not easy.

What this brand forbids

Written down so it cannot be quietly abandoned when someone wants a growth spurt.

- ✕ A number without a source
- ✕ A claim without a date
- ✕ “Do this.” We give options, never orders
- ✕ Quietly overriding an official source
- ✕ Compute-and-disclaim — if we don’t know, we refuse
- ✕ An exclamation mark
- ✕ A testimonial where a citation belongs
- ✕ Any growth tactic that costs a shred of what we sell

We are selling the belief that we checked. Nothing is worth spending that on.

Pause — and know where you stand.
